

# Iyolwa - facility report

## 1. Identification

| Facility                    | Iyolwa                         |
|-----------------------------|--------------------------------|
| Named on the programme list | Iyolwa                         |
| Type                        | School                         |
| Local government            | Tororo District                |
| Region / sub-region         | Eastern / Bukedi               |
| Date of visit               | 2026-08-30                     |
| Team members present        | Kayongo Tonny, Lydia Nakiganda |
| Informant interviewed       | None recorded                  |
| Supervisor                  | Kassim Luminsa                 |
| Supervisor's contact        | +256 702 806116                |
| Date of submission          |                                |

## 2. Entry

Kayongo Tonny and Lydia Nakiganda reached Iyolwa Seed Secondary School on 30 August. A hand-filled register naming NYOLWA SEED SECONDARY SCHOOL is on file together with 118 photographs. The register came in on 2 September, after the visit day. Nobody is named as having received the team.

## 3. Condition and status

The four things the exercise exists to establish. Only what was established on site appears here; the rest is marked as not reported, not guessed.

| Dimension           | What was established on site                                                                                                                         |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Ownership           | Not reported.                                                                                                                                        |
| Functionality       | Established on the hand-filled register for furniture, ICT and buildings. The guide says the school holds a record and can use PHC funds for repair. |
| Usage / performance | Partly established. The guide says UgIFT brought water supply the community uses and improved education service.                                     |
| Location            | Recorded on the register and shown in photographs of classrooms, the ICT room, laboratory, sound equipment and solar panels.                         |

## 4. Supplied against found

The hand-filled register is the found side and nothing was counted on the day.

## 5. Engraving and identification

Laboratory stools in the photographs carry IYOLWA SEED S.S engraving. The register records not engraved on most furniture and ICT lines.

## 6. Obsolete, unserviceable or for disposal

One broken laboratory stool appears on the register and in a photograph; nothing was named for disposal.

## 7. Operation and maintenance

The discussion guide was answered. The school asks for more teachers, more classrooms and electricity.

## 8. Queries

- The register header writes NYOLWA against the programme name Iyolwa; settle the official name.
- Nothing here was counted; count the furniture, ICT and buildings schedules.
- Ownership was not established.
