|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>COVERED</b><br>A local government is covered once the team returned work from it; a facility once the team got to it, whether or not it got inside. A locked store or an absent head teacher is not marked against the team. | <b>DISTRICT OFFICE REACHED</b><br>Evidenced, not assumed: something photographed at the district office, a record the district handed over, or a local government report already written up. Shown for coverage; it does not change the score. | <b>NOT SCORED</b><br>The courtesy call, officer interviews and debrief note are never scored. They may still be written when the record supports them; they do not move the percentage. | <b>PER FACILITY</b><br>Each allocated facility owes three units: a folder, the hand-filled toolkit, and the Word toolkit written up from that copy. A missing booklet or Word file marks the team down. | <b>WHY IT IS OUTSTANDING</b><br>Where a local government was not reached, or was reached and facilities in it are still outstanding, the reason beneath the names is what that district's own record says. No reason on file means it says nothing. | <b>READING THE NAMES</b><br>Facilities covered are named as the return names them, those not covered as the programme list carries them. A name listed as also worked stands on no line of the allocation and is counted in neither column. |

## THE REPORTING DOCUMENTS THE SCORE USES

|   | DOCUMENT                          | WHAT IT RECORDS                                                                                                                       | WHAT IT TAKES         | ON FILE      |
|---|-----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|-----------------------|--------------|
| 1 | <b>Asset register review</b>      | What the district produced as its record of assets, or that it produced nothing. Written for every local government the team visited. | <b>The team alone</b> | 26 of 26     |
| 2 | <b>Local government report</b>    | The brief to the supervisor, with photographs: coverage, key findings and every outstanding query.                                    | <b>The team alone</b> | 26 of 26     |
| 3 | <b>Daily log</b>                  | Each researcher's day: the local governments covered and what was verified in each.                                                   | <b>The team alone</b> | 26 of 26     |
| 4 | <b>Process report</b>             | The team's field report on the whole assignment. One per team, not one per local government.                                          | <b>The team alone</b> | 6 of 6 teams |
| 5 | <b>Asset-Verification-Toolkit</b> | The Word toolkit filled from the photographed hand-filled copy and placed in the facility folder.                                     | <b>The team alone</b> | 95 of 101    |
| 6 | <b>Hand-filled toolkit</b>        | The booklet the team filled on site, photographed or scanned, naming the facility.                                                    | <b>The team alone</b> | 95 of 101    |
