| Date of submission           | 28th-08-2026.              |

### Recommendations

- Solar power systems
- Staff houses
- Gravelly under staff
- Store for the equipment & furniture.

NB - The Incharge need the transport system for example motorcycle because other health centre Incharges received under USAID. Which can help us in outreaches for example immunization

**HEALTH CENTRES**  
**INFORMANT INTERVIEW/DISCUSSION GUIDE (INCHARGE OR RESPONSIBLE PERSON)**

Name of Health Centre: KYAMWINUWA HEALTH CENTRE III

|    |                                                                                                                                                           |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1a | Does the Facility have a record of all assets provided under UgIFT. <u>YES</u> .<br>(Obtain a record and verify if it has the costs and numbers supplied) |
| 1b | If Not ask how many were supplied and when.                                                                                                               |

|   |                                                                                          |
|---|------------------------------------------------------------------------------------------|
| 2 | How does this facility Maintain (repair/service/replace) the assets provided under Ugift |
|---|------------------------------------------------------------------------------------------|

YES Through using the PHC funds.

|   |                                                                                                 |
|---|-------------------------------------------------------------------------------------------------|
| 3 | Does the facility take regular record about functionality/ or breakdown of the assets provided? |
|---|-------------------------------------------------------------------------------------------------|

YES They just mark on the Inventory.

|   |                                                                                                                                                     |
|---|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| 4 | How has the UgIFT support helped in service delivery in the area. any issues, challenges and any recommendations for better program implementation. |
|---|-----------------------------------------------------------------------------------------------------------------------------------------------------|

The maternity was construction and they upgrade  
improve in service maternity, Inpatient AMC.

Challenges:

The power is not variable and they don't have a backup

Energy system.

The baby warmer voltage is small / Radio

PROCEED TO VERIFICATION AFTER THIS DISCUSSION

The water pump is Non functional

under staff

Staff quarter for 5 staff atleast.  
lack of enough store.
