

Butaleja District - review of the record of assets held at the local government

1. What the district holds

Butaleja produced no record of assets. The papers on file from the district office are ministry circulars demanding that asset registers be submitted, which is the demand for a register and not the register. Delivery notes and an acknowledgement naming Mazimasa HC III were photographed at that health centre and are not a district listing.

2. What it covers

Three facilities in Butaleja were photographed and each now has a named toolkit. The district paper does not name any of them.

3. Completeness

Butaleja handed over no books of its own.

4. What it can and cannot establish

A circular asking for registers is not itself a register. Supplied quantities for Butaleja cannot be read from the local government. Mazimasa HC III can be compared from papers photographed at the facility.

5. Queries

- Obtain Butaleja's own record of programme assets, or a written statement that the district holds none.
