

Bulaago HC III - facility report

1. Identification

Facility	Bulaago HC III
Named on the programme list	Bulaago HC II
Type	Health centre
Local government	Bulambuli District
Region / sub-region	Eastern / Elgon
Date of visit	2026-08-26
Team members present	Kyanamira Nathan, who recorded the visit
Informant interviewed	Nandutu Annet, assistant nursing officer acting as in-charge
Supervisor	Kassim Luminsa
Supervisor's contact	+256 702 806116
Date of submission	

2. Entry

The acting in-charge received the team and produced an inventory list of the assets supplied under the programme, 253 units, with no cost against any line. No visitors' register was photographed. A hand-filled verification booklet naming Bulaago Health Centre is on file.

3. Condition and status

The four things this exercise is here to settle. What follows is what the visit established and nothing else; where it established nothing, the row says not reported.

Dimension	What was established on site
Ownership	Not reported. No title or ownership document was recorded.
Functionality	The acting in-charge said the assets are not yet broken. The hand-filled booklet records the equipment as available, in use and serviceable. Some equipment is not in use even though space for it is there.
Usage / performance	Reported for the facility. The programme built a maternal ward, staff quarters, a patients' latrine, a fence, an incinerator and walkways, and supplied water tanks. Immunisation, inpatient and outpatient work now happen here.
Location	Established as far as the photographs show it. No item was written down against a room.

4. Supplied against found

The inventory list names 253 units and carries no costs. The hand-filled booklet records what was found, line by line, with a count against most items. Those two figures have not been set against each other. The acting in-charge said some items are fewer than what was received.

5. Engraving and identification

The hand-filled booklet records that nothing here is engraved under UgIFT and that nothing carries a serial number. Date of purchase was not known to the person interviewed.

6. Obsolete, unserviceable or for disposal

No item was put forward for disposal.

7. Operation and maintenance

The acting in-charge said the assets have not yet broken, that a specialist is hired when a repair is needed, and that a regular record of functionality goes through the District Health Officer's inventory officer. Water is short in the dry season, staff are few, the staff quarters are not enough, and the security guard has no shelter.

8. Queries

- Nothing here is engraved or serialised. Have the programme's mark put on, or record why it is not required.
- Some equipment is not in use. Establish what it is and why it sits idle.

- Set the counts in the hand-filled booklet against the 253 units on the inventory list.
