2. Entry

The school was reached on 24 August and photographed from the gate and the frontage. No visitors' register was photographed that day. Later photographs of the multipurpose hall, ICT and library block, toilets, administration block, staff quarters, laboratory stores, classrooms, computer rooms and the playing field are now on file.

3. Condition and status

The four things this exercise is here to settle. What follows is what the visit established and nothing else; where it established nothing, the row says not reported.

Dimension	What was established on site
Ownership	Not reported. No land title, ownership document or ownership statement was recorded.
Functionality	Not reported item by item. The photographs show buildings and furniture in place, and nothing was recorded as working or not working.
Usage / performance	Not reported.
Location	The school itself. Gate and frontage frames from 24 August, and later frames of the halls, ICT and library rooms, toilets, staff quarters, laboratory stores, classrooms, computer control room and the playing field.

4. Supplied against found

Nothing can be compared. No delivery note, invoice or asset listing naming this school is on file, and the hand-filled booklet carries the discussion guide only, so there is no found schedule to set against a supplied figure.

5. Engraving and identification

Not reported. No item at this school was recorded as engraved or not engraved, and no asset number or serial number was taken from the photographs.

6. Obsolete, unserviceable or for disposal

No item at this school was put forward as obsolete, unserviceable or fit for disposal.

7. Operation and maintenance

The school was closed for the holidays on 24 August with nobody on site. A toolkit page naming this school is on file and carries that explanation and the head teacher's number. Whether the school holds a record of UgIFT assets, how many were supplied and when, how it maintains them, whether functionality is recorded, and what the support has done for service delivery are answered only as far as that page goes.

8. Queries

- The hand-filled booklet carries the discussion guide only. Fill the furniture, ICT and buildings schedules against what the photographs now show.
- The programme list names this school Bumirisa Seed School Buteza, the signboard names it Buteza Seed Secondary School, and the later photographs were passed on under the name Buteresa Seed School. Three names now stand for one school. Confirm which is the official one.
- Ownership, functionality and usage were not established item by item on either visit.
