

Mbale District - review of the record of assets held at the local government

Mbale produced no record of assets. The one district paper on file is a Ministry of Finance circular under Mbale District Local Government's received stamp of 31 August 2026, the demand for a register and not the register itself.

The filled toolkit pages for the two schools sit beside this review and are not a district record.

Finding

There is nothing at district level against which either school's holding can be checked.

Queries

- Obtain Mbale's own record of programme assets, including the register dated 2026-07-31 that was recorded as obtained, or a written statement that the district holds none.
