

Nakapiripirit District - interviews with local government officers

Held 2026-08-24 at the district headquarters, at the start of the team's work in this local government.

1. Who was seen

Officer	Role	Seen
Not named	Chief Administrative Officer	Yes - received the team
Not named	District Education Officer	Yes
Chief Finance Officer		No record
District Health Officer		No record

2. What each gave the team

The Chief Administrative Officer. Received the team, introduced the member to the District Education Officer, and stated that the district holds no asset register.

The District Education Officer. Stated the same, and telephoned the head teachers of Nakapiripirit Seed School and Moruita to arrange both visits for the following day.

3. Asset management practice at the district

One thing was established and it is the important one: **the district holds no asset register.** Both officers said so on the day. Nothing else was recorded - not how the district records what it issues, not how it maintains what it has issued, not who would hold a register if one existed. The Chief Finance Officer and the District Health Officer were not seen at all, so the finance and health sides of the district are unrecorded.

4. Challenges the district raised

None was recorded. Neither officer was asked about, or reported, any challenge in managing the assets the programme has supplied.

5. Queries

- Both officers are unnamed. Record their names and their signatures against what they said.
- The statement that the district holds no asset register is the central finding for this local government. Confirm it in writing with the Chief Administrative Officer.
- The Chief Finance Officer and the District Health Officer were not interviewed. The exercise requires all three named officers.
- No challenge and no recommendation was recorded at district level. Arrange the interviews and record both.
