

Napak District - review of the record of assets held at the local government

1. What the district holds

Napak produced no record of assets of its own: no district register, no delivery note, no asset listing. Two registers were obtained here and both are a school's own record of what it holds: Napak Seed Secondary School's bound register, and the Lopei Seed Secondary School register the District Education Officer produced. Neither is the district's.

2. What it covers

Nothing at district level. The two school books answer what those schools hold, which is a different question.

3. Completeness

Napak's own books are not among the papers obtained.

4. What it can and cannot establish

A school's register cannot stand in for the district. Supplied quantities for Napak cannot be read from the local government.

5. Queries

- Obtain Napak's own record of programme assets, or a written statement that the district holds none.
