

Buwumba HC III - facility report

1. Identification

Facility	Buwumba HC III
Named on the programme list	Not named
Type	Health centre
Local government	Busia District
Region / sub-region	Eastern / Bukedi
Date of visit	2026-08-26
Team members present	Kayongo Tonny, Lydia Nakiganda
Informant interviewed	None recorded
Supervisor	Kassim Luminsa
Supervisor's contact	+256 702 806116
Date of submission	

2. Entry

The team reported reaching this facility on 26 August, one of the last three worked in the district. A hundred and fifty-three photographs are on file. Nobody is named as having received the team. No visitors' register was photographed. A hand-filled register naming Buwumba HC III is on file, so what it carries is verified though ownership was not established.

3. Condition and status

The four things the exercise exists to establish. Only what was established on site appears here; the rest is marked as not reported, not guessed.

Dimension	What was established on site
Ownership	Not reported. No land title or ownership document was obtained.
Functionality	Established line by line on the hand-filled register, with several lines left blank or soft where the writing could not be read.
Usage / performance	Partly established. The informant says UglFT equipment improved service delivery and the facility now receives medicines for a level III centre, but staffing and transport are inadequate.
Location	Recorded on the register for what was written up and partly confirmed in the photographs - the laboratory, wards, store and compound appear among them.

4. Supplied against found

The hand-filled register is the found side and nothing on the day was counted against it, so not one line is closed.

5. Engraving and identification

The register records engraving on some lines and not engraved on others. No asset number column is filled on the copy.

6. Obsolete, unserviceable or for disposal

Nothing on the register was named for disposal.

7. Operation and maintenance

The discussion guide was answered. The facility holds a record, maintains assets from PHC funds, records breakdowns, and asks for more staff, transport and continuous follow-up.

8. Queries

- This facility is named on no programme list for the district; establish whether it is in scope.
- Nothing here was counted on the day; count room by room and set the count against the hand-filled register.
- Ownership was not established and no land title was obtained.
- Several register lines are blank or illegible; complete them on the next visit.
