

Amudat District - review of the record of assets held at the local government

1. What the district holds

Amudat produced no record of assets. Nothing was offered and nothing is on file. The inventory obtained here is the school's own list, which is a facility record and not the district's.

2. What it covers

Amudat has no district paper against which either school can be checked.

3. Completeness

Amudat's own books are not among the papers obtained.

4. What it can and cannot establish

A school inventory cannot stand in for the district. Supplied quantities for Amudat cannot be read from the local government.

5. Queries

- Obtain Amudat's own record of programme assets, or a written statement that the district holds none.
