THE CHIEF ADMINISTRATIVE OFFICER
MANAFWA DISTRICT LOCAL GOVERNMENT

Dear sir/Madam,

RE: THEFTY OF COMPUTERS

This is to bring to your notice that yesterday night 4/2/2025 unknown persons entered the school and stole 8 computers from the computer laboratory.

The stolen computers were part of the 28 computers BAU Company delivered to school last year in March and were installed by his team in July still last year 2024.

After installing them he allowed us to use because students were indeed missing practical lessons in ICT.

As a head teacher, I received a call at around 6:30am on the 5/2/2025 from one of the watchmen called Wakwale Wilber. He was on duty that night with okongoba john. He informed me that there is no padlock on the computer lab. So when I reached school I had to inform the D.E.O, RDC, DISO, Chairman B.O.G and reported the case to Buwagogo police station. - CRB06/2025

The watch men were taken as suspects and these were Okongoba John, Wakwale Wilber, Watuwa Ben and Nasirenawe Peter and were taken to mayenze police station to assist police in investigations.

I then had to write to O.C Buwagogo police station requesting for armed security personnel to continue guarding the school property for the mean time.

Thank you
Yours faithfully,

Namarome Catherin
