2. Entry

On 1 September the team reached Namboko Seed Secondary School in Namisindwa. A hand-filled register naming NAMBOKO SEED SECONDARY SCHOOL is on file together with 118 photographs. Nobody is named as having received the team.

3. Condition and status

The four things the exercise exists to establish. Only what was established on site appears here; the rest is marked as not reported, not guessed.

Dimension	What was established on site
Ownership	Not reported.
Functionality	Established on the hand-filled register. Seventeen chairs, two laboratory stools and some ICT lines are marked non-functional or stolen.
Usage / performance	Partly established. The guide says UglIFT improved education service but the school is still under defect liability, lacks fencing and has inadequate science materials.
Location	Recorded on the register and shown in photographs of classroom blocks, the laboratory, staff quarters, kitchen, latrines and water tanks.

4. Supplied against found

The hand-filled register is the found side and nothing was counted on the day.

5. Engraving and identification

Chairs in the photographs carry NAMBOKO SEED SEC SCH markings. The register records labelled furniture on several lines.

6. Obsolete, unserviceable or for disposal

Seventeen chairs and two laboratory stools are broken; stolen monitors and CPUs appear in the ICT remarks.

7. Operation and maintenance

The discussion guide was answered. The school is under defect liability, asks for early commissioning and fencing, and says administrators should come early enough.

8. Queries

- Confirm what the contractor still owes under defect liability.
- Fence the school; the guide cites insecurity without it.
- Nothing here was counted on the day.
- Ownership was not established.
