

01 / EXECUTIVE SUMMARY

Facility completion status

Coverage is 531 of 629 master facilities (84.4%). Coverage includes every facility except the 98 with no return. Within this coverage, 500 are complete, 22 need a decision and 9 have an explained outcome. The completed total includes 458 with facility-specific material and 42 with identifiable information in consolidated asset registers. “Complete” means the data is sufficient for this reconciliation; it does not certify that every asset was physically inspected.

The master contains 632 source rows and 629 distinct schools and health centres. Kapedo in Karenga, Nyamarunda in Kibaale and Kidubuli HC II in Kabarole are each listed twice within the same local government, so each facility is counted once. The 3 regional blood banks are reported separately.

Status of the distinct master facilities

Status	Count	%	What it means
Completed	500	79.5%	Identifiable facility information is available in a facility return or consolidated register. Examples: Ntwetwe Seed School has a facility toolkit; Awei Seed School has identifiable rows in the Team 7 register.
No return	98	15.6%	No matched facility return or identifiable asset row is on file, and no documented reason places it in another status. This does not prove absence. Example: Butiaba HC II, Buliisa.
Needs review	22	3.5%	The facility name, local government or verification account conflicts. Example: Iceme HC II has two different accounts of the visit.
Explained cases	9	1.4%	6 reported absent; 1 no UgIFT assets; 1 outside UgIFT; 1 replaced.

Replaced / 1 facility / 0.2%. The replacement already has its own master entry, so its evidence is counted there once. Example: Loinya HC II was replaced by Liko HC III; Liko is already represented by master entry H212.

The immediate follow-up

Start with Teams 25, 30 and 32, which account for 41 of the 98 outstanding returns. Resolve the 22 conflicting master records and confirm the reported absences with the relevant local governments. Onywako has a return but explicitly was not physically verified; Iceme has conflicting accounts of the visit.

40 unmatched ground names or returns are listed separately. Some may be aliases of master entries; they are not a confirmed count of additional facilities and are not added to the master evidence totals.

Reading the lists: H = health-centre master row; S = school master row; X = unmatched ground record; B = blood bank. “Team 17,” for example, means the field team responsible for that facility. SS means secondary school; MC means municipal council. IDs link to the companion reconciliation and evidence CSVs.

Percentage basis. Summary percentages use the 629 distinct master facilities. Each team coverage percentage uses that team's listed facilities and includes every status except No return. The 40 unmatched ground names or returns and 3 regional blood banks are excluded.

Report sections. 2 Team responsibility / 3 Returns needing a decision / 4 Outstanding returns and explained cases / 5 Completed facilities / 6 Unmatched ground names / 7 Blood banks and sources.

02 Team responsibility

Counts below cover the master list only. **Completed** includes identifiable information from either a facility-specific return or a consolidated register. **Coverage** includes every listed facility except those in No return; it is not a physical-verification rate. The named supervisor owns the follow-up; the full allocation remains in team-distributions.docx.

*Other = reported absent, no UgIFT assets, outside UgIFT or replaced. A zero means no entry in that status, not confirmation that verification is complete.

03 Returns that need a decision

22 master entries have conflicting identity, location or verification accounts. The supervisor should resolve the point shown, then correct or confirm the return. “Team 17,” for example, is the field team responsible for the facility. Full documents and worksheet locations are linked by ID in facility-evidence-index.csv.

Master entry / team and LG	Point to resolve
Amanyiri Team 2 / Yumbe H228	The filed form names Ekaligo. Confirm and correct the facility-specific return.
Ladonga Seed School Team 2 / Yumbe S037	The filed form names Liko. Confirm and correct the facility-specific return.
Alira HCII Team 5 / Oyam H193 CHAT10	Supervisor reports Alira does not exist, but revised Icheme narrative refers to Alira as a sibling facility. Confirm with the DHO before removing the master entry.
Iceme HC II Team 5 / Oyam H202	Original Icheme return says physical verification was not conducted. Revised return says a late-evening visit took place without photos. Supervisor to confirm which account applies.
Arwotchek HC II Team 6 / Amolatar H165	The filed form names Kyankaramata. Confirm and correct the facility-specific return.
Busota HC II Team 18 / Kamuli MC H092	Busota softcopy received from Sulaina on 21 Sep at 16:47. Cover names Kamuli district; checklist and master name Kamuli MC. Confirm the LG heading.
Kibazi HC II Team 19 / Bushenyi H240 Sheet1!row 3	Register heading places the named facility in Mitooma, while the master lists it here. Confirm district and facility identity before closing the record.
Kyeihara HC II Team 19 / Sheema H278 Sheet1!row 555	Register heading places the named facility in Mitooma, while the master lists it here. Confirm district and facility identity before closing the record.
Mabaare HC II Team 19 / Sheema H277 Sheet1!row 833	Register heading places the named facility in Mitooma, while the master lists it here. Confirm district and facility identity before closing the record.
Kashoozi HCII Team 19 / Sheema MC H281 Sheet1!row 603	The register places the facility in Sheema; the master lists Sheema MC. Confirm the local government.
Kitojo HC II Team 19 / Sheema MC H280 Sheet1!row 283	Register heading places the named facility in Mitooma, while the master lists it here. Confirm district and facility identity before closing the record.
Nsiika T/C Team 20 / Buhweju S213 Sheet2!B3	New asset sheet names Ndibarema Memorial SSS, Nsiika, Buhweju. Confirm it is the master-list Nsiika T/C school.
Kabahango HC II Team 27 / Bunyangabu H326 UGIFT HEALTH!row 1833	The register places the facility in KAMWENGGE; the master lists Bunyangabu. Confirm the local government.

Master entry / team and LG	Point to resolve
Kiyombya seed school Team 27 / Bunyangabu S251 IGIFT EDUCATION!row 196	The register places the facility in KAMWENG; the master lists Bunyangabu. Confirm the local government.
Kabambiro HC II Team 27 / Kamwenge H336 UGIFT HEALTH!row 3939	The register places the facility in BUNYANGABU; the master lists Kamwenge. Confirm the local government.
Kanara HC II Team 27 / Kamwenge H337 UGIFT HEALTH!row 1565	The register places the facility in KITAGWENDA; the master lists Kamwenge. Confirm the local government.
Railway HC II Team 27 / Kasese MC H344 UGIFT HEALTH!row 4209	The register places the facility in KASESE; the master lists Kasese MC. Confirm the local government.
Kabweza Team 28 / Kyegegwa H345	Process report describes Kyankaramata rather than the named facility. Confirm the report and facility-specific evidence.
Kataraza HC II Team 28 / Kyenjojo H349	Process report describes Kyankaramata rather than the named facility. Confirm the report and facility-specific evidence.
Buseregenyu HC II Team 28 / Mubende H040 UGIFT HEALTH!row 7390	The register places the facility in MITYANA; the master lists Mubende. Confirm the local government.
Mamba HC II Team 32 / Gomba H008	Gomba/Mamba cover conflicts with an interview naming Kibiri. Confirm the correct form and checklist.
Kibiri HC III Team 32 / Makindye-Ssabagabo MC H050	Kibiri cover/interview conflicts with a Gomba/Mamba checklist in one return. Separate Kibiri process report received; reconcile the toolkit.

Onywako: return received, physical verification not done

X019 / Team 5 / Lira. The form says the assets were reported by the in-charge and could not be physically verified. Keep this separate from completed visits. No explicit instruction pairs Onywako with the missing Alik master entry.

04 Outstanding returns and explained cases

9 facilities are excluded from the 98 outstanding-return total because a specific reason has been documented. They remain in the master reconciliation and are not automatically treated as physically verified. The reason for each exclusion is shown below.

Master entry / responsible team	Recorded reason
Loinya HC II Team 2 / Maracha H213 CHAT04	Replacement counted elsewhere Loinya was replaced by Liko, which already has master entry H212. Count Liko once.
Lodonga TC Team 2 / Yumbe H227 CHAT03	Reported absent The supervisor could not identify Lodonga TC in Yumbe. The district should confirm the master entry.
Pandwong HC II Team 4 / Kitgum MC H149 CHAT02	No UgIFT assets The supervisor confirms the facility exists but received no UgIFT assets. The master assigns it to Kitgum MC.
Olok HC II Team 4 / Pader H205	Reported absent Combined Olok HC / Latanya school report records the DHO saying Olok HC does not exist and was not constructed. Latanya school is separate.
Alik HCII Team 5 / Lira H190 CHAT11	Reported absent Alik was reported nonexistent. The message names Barlonyo and Onywako but does not say either replaces Alik.
Acimi HC II Team 5 / Oyam H197 CHAT10	Reported absent Reported nonexistent in the Oyam supervisor message. No one-to-one replacement was specified.
Acokara HCII Team 5 / Oyam H195 CHAT10	Reported absent Reported nonexistent in the Oyam supervisor message. No one-to-one replacement was specified.
Ariba HC II Team 5 / Oyam H200 CHAT10	Reported absent Reported nonexistent in the Oyam supervisor message. No one-to-one replacement was specified.
Buyinda HC II Team 17 / Kaliro H086 CHAT14	Outside UgIFT Sulaina says Buyinda was not verified because it is outside UgIFT. Her messages alternate between a school and health centre; confirm they refer to the listed Buyinda HC II.

98 returns still outstanding

98 master facilities still have no matched return or usable asset rows. Names below are from the master. Naming changes expressly confirmed by a supervisor and linked to field material are counted as Completed. Possible aliases without that confirmation remain open in the reconciliation CSV.

05 Completed facilities

500 completed facility records follow: 458 have facility-specific material and 42 have identifiable information in consolidated registers. They share one Completed status. The companion CSVs retain the source file, worksheet and row for audit. Completion does not certify that every asset was physically inspected.

Supervisor-confirmed naming changes are counted against the relevant master entry when field material is on file. This includes Butagaya / Buwala and Mwema / Mutumba. The reconciliation CSV retains the submitted name, source file and decision reference.

07 Blood banks, sources and counting

Regional blood banks

These three facilities are allocated in team-distributions.docx and sit outside the school/health-centre master denominator.

Allocation	Evidence status
Arua Regional Blood Bank Team 2 / Arua / B001	Field evidence A facility-specific asset workbook is on file: ARUA BLOOD BANK-1.xlsx.
Soroti Regional Blood Bank Team 8 / Soroti / B002	Field evidence A combined Soroti blood-bank and Kamuda school verification toolkit is on file.
Hoima Regional Blood Bank Team 25 / Hoima City / B006	No return The team return is outstanding. A programme inventory is on file, but it does not establish team verification.

How the totals were counted

A repeated facility means the same facility appears more than once within one local government. The master has 632 rows and 629 distinct facilities after three such facilities are counted once. Every retained master ID appears once in the status lists in sections 3-5. Construction labels such as Complete and Ongoing describe the project, not asset verification.

Facility	Local government	Source IDs	Why counted once
Kapedo	Karenga	S146 + S147	Same school listed for Phase II and Phase III; both source rows are preserved.
Nyamarunda	Kibaale	H299 + H300	The same health-centre name appears twice.
Kidubuli HC II	Kabarole	H329 + H331	The same health centre appears as "Kidubuli HC II" and "Kidubuli HCII".

Sources and supporting files

Master and allocation. SCHOOLS BY DISTRICT AND HEALTH CENTRES.docx; team-distributions.docx.

All original master rows. master-source-rows.csv preserves all 632 source rows, including repeated facilities and their project phases.

Field material. All 12,312 physical and archived source entries were indexed and opened. This includes 107 WEMIS PDFs (356 pages) inside a nested RAR; they are district equipment handover records, contain no facility returns and do not change the facility totals. Grouped files preserve the source content.

Supervisor decisions. WhatsApp Chat with DATA MANAGEMENT UGIFT.zip, 21 September 16:10 to 22 September 08:12. Messages and attachment references are recorded as CHAT01-CHAT14.

Facility reconciliation. facility-reconciliation.csv: every retained master entry, unmatched ground name/return, status, explanation and master-row reference.

Evidence trail. facility-evidence-index.csv: facility IDs with document paths and worksheet locators; _index.csv: source-root provenance and grouped destinations.

Decision and duplicate logs. supervisor-decisions.csv preserves the messages used; master-duplicate-rows.csv records the three combined master rows.
