

Bududa District - interviews with local government officers

Held 2026-08-27 at the district offices.

1. Who was seen

Officer	Role	Seen
Not named	Chief Administrative Officer	No - away on official duty
Not named	Chief Finance Officer	No record
Mrs Khainza Betty Naster	District Education Officer	Yes
Mr. Kamala Alex	District Health Officer	Yes

2. What each gave the team

Mrs Khainza Betty Naster, District Education Officer. Told the team that Bushiribo Seed Secondary School is still under construction and that most of the equipment meant for it is held at the district offices, only the furniture having been delivered to the site. She sent the district engineer with the team to confirm both.

Mr. Kamala Alex, District Health Officer. Received the team with the District Education Officer and commissioned it to go on with the work. What he said about the health centres is not recorded.

3. Asset management practice at the district

Barely established. No officer described how Bududa records its UgIFT assets, how it maintains them, or who holds the register. What the District Education Officer did give is a fact about one school: its equipment is split between the site and the district offices because the school is not finished.

4. Challenges the district raised

One, and the District Education Officer raised it: Bushiribo Seed Secondary School cannot take the full consignment until the buildings are finished.

5. Queries

- The Chief Administrative Officer and the Chief Finance Officer were not seen. Arrange both.
- Obtain the listing of equipment held at the district offices for Bushiribo Seed Secondary School.
- What the District Health Officer said about the health centres is not on file. Record it.
