

FIELD REPORT ON UGIFT ASSET

VERIFICATION FOR TEAM 28

Introduction

An asset verification exercise was conducted to establish the existence, condition and functionality of all assets under ugift program in different local governments specifically under health and education department

Methodology

Interview/ interactions with the CAO or townclerk, DHO, DEO , District Engineers, CFO by visiting the district offices.

Engravement/tagging check through observation and taking pictures by visiting the facility.

Taking pictures of assets observed/ verified. Physical count of all assets comprising with the quantity on the register or delivery note.

Team members

1. Namayanja vanessa
2. Baluuba Jalia
3. Kato Charles

Local government verified

1. Fort portal
2. Kyenjojo
3. Kyegegwa
4. Mubende
5. Mubende MC

Challenges

1. High transport costs since the areas are in very far places
2. Some in charge where not cooperative they could waste time not attending to you.
3. Most head teachers where not around the schools.
4. Some in charges couldn't identify some assets i.e have the assets but don't know the names of the assets.
5. Town clerks/CAO, claimed that they were not informed
6. Most assets where not engraved those engraved its not for UGIFT

7. The facility don't have documents.

Recommendations

1. Engravement of the assets
2. Orienting the in charge about the assets given to them.
3. Looking through the transport issue
4. Informing the district and municipalities in time
