2. Entry

The team reached this school on 28 August. A hand-filled register naming Malaba Seed Secondary School is on file together with 147 photographs. Nobody is named as having received the team. No visitors' register was photographed.

3. Condition and status

The four things the exercise exists to establish. Only what was established on site appears here; the rest is marked as not reported, not guessed.

Dimension	What was established on site
Ownership	Not reported. No land title or ownership document was obtained.
Functionality	Established line by line on the hand-filled register for furniture, ICT and buildings, though several description cells were left blank where the writing could not be read.
Usage / performance	Not reported. The discussion guide was not among the pages photographed.
Location	Recorded on the register for desks, laboratory stools, book shelves, ICT items and buildings; the photographs show classrooms, the laboratory, library shelving and compound works.

4. Supplied against found

The hand-filled register is the found side and nothing on the day was counted against it, so not one line is closed.

5. Engraving and identification

The register records not engraved on most furniture and ICT lines. Desks in the photographs carry M.S.S.S markings.

6. Obsolete, unserviceable or for disposal

One laboratory stool on the register is recorded broken; nothing was named for disposal.

7. Operation and maintenance

The discussion guide was not answered because it was not among the pages photographed.

8. Queries

- The discussion guide and cover block of the hand-filled register were not photographed; complete them.
- Nothing here was counted on the day; count against the hand-filled register.
- Ownership was not established.
